

Sun Care for Your Skin. . . That’s Gentle on the Environment

There are 40 Qualified Sun Care Products listed in our BioPreferred® Program Catalog, 30 of which are USDA Certified Biobased. You might not guess the variety of raw materials used in these products. Not only are they renewable, but they reduce our reliance on petroleum-based products.

Find these and other products in our Catalog or look for the USDA Certified Biobased Product label on store shelves

California Baby SPF 30+ Sunblock Sticks are a mineral sunscreen formula scented with essential oils like lemongrass and gardenia flowers.

The Boogie® Mineral Sunscreen Stick combines Zinc Oxide with aloe leaf extract, shea butter and coconut, sunflower, castor, cocoa and jojoba oils. Plus, it’s not just safe for babies, but also safe for reefs.

Babyganics® SPF 50 Mineral Sunscreen is formulated with plant-derived and certified organic ingredients. The manufacturer’s NeoNourish® Seed Oil Blend features tomato, sunflower, cranberry, black cumin and raspberry seed oils.

Avasol® Surfers Barrier Stick is an SPF 30 and USDA Certified 100% Biobased. Even its non-nano mineral actives are biobased and deemed safe for the Ocean and other aquatic habitats.

Stream2Sea® EcoStick Sunscreen is a mineral-based sunscreen that’s been tested and proven safe for freshwater fish, saltwater fish, and coral larvae. This product is made from holy basil, greet tea, olive leaf, and wakame.

Didn’t Use Enough Sun Care?

Within our Catalog, we have a variety of products to treat sunburns and skin irritations. Here are some examples of After Sun Care. . .

Organic all-purpose balm from the Honest Company. Made from organic sunflower, olive and coconut oils, shea butter, tamanu oil, chamomile, and calendula, along with beeswax.

Aloe & Arnica™ Soothing Spray by California Baby. Organic aloe vera and calendula blend with arnica, as well as extracts of basil and anise to avoid the use of petroleum based harsh preservatives.

Sun2Stream® Sun & Sting Relief Gel blend is made from green tea, tulsi, wakame, and olive leaf.
